

# Contract history letter

To whom it may concern,

Public Services and Procurement Canada (PSPC), a federal department of the Government of Canada, has issued this letter to confirm that the contracts listed below were awarded by PSPC to Matt's Test Account for the delivery of goods and/or services to Government of Canada's departments, agencies and/or Crown corporations.

Please note that a company may do business with the Government of Canada under multiple operating names. The contracts to include in this letter were selected by the company, and therefore, may not represent all of the contracts that they were awarded. The contract information in this document is publicly available for download on the Government of Canada's Open Government website ([open.canada.ca](https://open.canada.ca)).

This letter may only be used by the company named herein and is rendered null and void if presented by any other party.

Clinton Lawrence-Whyte  
Director General, Procurement Assistance Canada  
Public Services and Procurement Canada

# Glossary

Find definitions below for the procurement terms used in this letter.

**Company legal name:**

The legal registered name of a business entity that is also a supplier to the Government of Canada.

**Company operating name:**

The names a business entity normally uses when conducting business as a supplier to the Government of Canada.

**Contract number:**

The unique identifier assigned to a contract.

**"Awarded" status:**

The contract history letter has been issued before the contract expired.

**"Expired" status:**

The contract history letter has been issued after the contract expired.

**"Cancelled" status:**

A contract that was amended to be legally cancelled.

**Total contract value (CAD):**

This includes total value of the contract, from award date to present (original plus all amendments).

**Award date:**

The date on which the contract came into effect.

**Client:**

The department or agency on whose behalf PSPC put the contract in place (The contract history file labels this field as "End user entity").

**Description:**

The description of the good or service that corresponds to the respective commodity code.
